Photographs by a fellow horsewoman

01 Horse Shows

You've worked hard to be here. Photography is a great way to celebrate + promote your efforts.

Show photography combines sport, documentary + portrait photography to uniquely tell the story of your show.

Official show photographers can charge over one hundred dollars on a single image.

Instead, choose to invest in photography that captures all aspects of your competition.

02 Portraits

Inspired by traditional studio photography, these images are simple yet powerful.

Sessions are laid back. Each horse is offered the time to be curious + settle in.

Various backdrops available including black, white or grey.

Conformation sale images
